# Annex 7. Summary of the Participant Feedback Form for Round Table (to be filled by host institution)

## Part 1: Round Table Information

Date 27<sup>th</sup> May 2022

Place Faculty of Science and Education, University of Mostar

Event objective Round table with stakeholders

Evaluator name Dragan Škobić PhD

Signature 

Evaluator Affiliation coordinator; University of Mostar

Results to be filled by organisers based on the questionnaire results.

Please note: insert only the overall percentage of all feedback forms received (e.g. participants total number = 30; 15 of them were most satisfied and 15 of them satisfied – please include 50% in the column most satisfied and 50% in the column satisfied.)

## Part 2: Organization and Structure

Organizational feature	3 Strongly Agree	2 Agree	1 Disagree	0 Strongly Disagree
The objectives of the event were clearly defined	76,9 %	23,1%		
Information related to each item prepared well in advance of the event	61,5%	38,5%		
The material distributed were helpful and on time	53,9%	46,1%		
The presentations meet my expectation	61,5%	38,5%		
Participations and interaction were encouraged by moderator	84,6%	15,4%		
The Round Table objectives were met	76,9 %	23,1%		
The timeframe was adequate	61,5%	38,5%		
The facilities were adequate	84,6%	15,4%		
Skill practice sessions were included	69,2%	30,8%		
Suggestion and criticism box (please include comments received)	None

## **Purpose, objectives and elements of event**

The round table was held at SUM as part of the congress on waste disposal. The aim of the Round Table was to improve cooperation with stakeholders from the real sector in the management and monitoring of aquatic ecosystems.

The title of the round table was "Challenges of waste disposal and preservation of aquatic ecosystems". The main task of the round table was waste, which is a global problem today, but also a burning problem in Bosnia and Herzegovina, Inadequately disposed waste on the karst of Herzegovina in the immediate vicinity of intact water ecosystems is particularly dangerous.

In addition to professors from FPMOZ, the participants of the round table were also representatives of the Adriatic Sea Water Agency, Federal Ministry of Tourism and Environment, NGO "Lijepa naša Čapljina", Environmental Protection Fund of the Federation of BiH, Office of the Mayor of Čapljina and representatives of WWF Adria. During these events the benefits of ECOBIASNET platform for stakeholders were explained, together with the effect of the improvement in knowledge/skills in EMAB.

## **LIST OF PARTICIPANTS**

**The list of participant is on the second page of this document.**

The Round Table moderators were Anita Dedić PhD and Dragan Škobić PhD.

Participants in the classroom: 3 professors and 3 assistants from Faculty of Science and Education and representatives / stakeholders from 6 institutions from the real sector.

The professors from faculty are:

- Dragan Škobić
- Svjetlana Stanić-Koštroman
- Anita Dedić

and as assistants are:

- Valentina Bevanda
- Josip Primorac
- Renato Vidič

The stakeholders from 6 institutions are:

- Dalibor Lasić, Agency for watershed of the Adriatic sea,
- Sanja Duranović, WWF Adria
- Tomislav Lukić, Federal Ministry of Tourism and Environment
- Marnko Dalmatin, NGO "Lijepa naša Čapljina"
- Ilijana Kolovrat, Environmental Protection Fund of the Federation of B&H,
- Ana Buljubašić, Office of the Mayor of Čapljina,
- Sanja Bosiljčić, Environmental Protection Fund of the Federation of B&H

## **Date of the 1<sup>st</sup> day**

27<sup>th</sup> of May 2022

## **CONCLUSIONS**

The Round Table was extremely successful. The main objectives of the Round Table were to improvement of participants from real sector, NGOs and various state agencies in the management of water ecosystem. The main emphasis is on inadequate waste management. A significant danger is represented by inadequately disposed waste on the karst of Herzegovina. In addition to inadequate disposal of waste, the biggest problem is represented by many wild landfills, which represent an immediate and significant danger for the water regime of this area, especially for natural water ecosystem

The main conclusion was the need for further gatherings for the purpose of mutual development of cooperation in the care of environment and nature preservation. One of the main conclusion is the preservation of aquatic ecosystems, which are among the first to be affected by inadequate waste disposal.

The participants of the Round table particularly showed interest in new ways of disposing of waste and what are the best ways to manage water ecosystems. Also, the participants were shown the close connection between inadequate waste disposal, the impact on the nearby water ecosystem and ultimately on human health, which led to a new understanding of things and finding solutions.

It was also concluded that such events are a good option for future cooperation on new projects in water protection and sustainable management of aquatic ecosystems.
