Purpose, objectives and elements of event

The purpose of the first Open Day at UDG was to present the LLL course on aquatic monitoring and bioassessment that will be offered at UDG as part of the ECOBIAS project to prospective students. The objective was to familiarise representatives of relevant institutions in Montenegro with the course details (structure, enrolment requirements etc) and opportunities for learning, cooperation and research in relation to aquatic biomonitoring with UDG.

From 32 participants present, 25 were from relevant institutions (12 different ones – JPNPCG, CCCNRE, IJZCG, ZHMS, MPSV, MEPPU, AUZP, AZSCG, UP, Municipalities Podgorica, Danilovgrad, Bijelo Polje), the rest were interested UDG students and ECOBIAS staff.

CONCLUSIONS

There was a great interest from the relevant institutions to hear about this course and use the opportunity for improving the skills of people already in the system of environmental protection. All institutions that are in some capacity related to aquatic biomonitoring had their representatives, with many more expressing interest. Discussion was very constructive, with institutional representatives giving useful feedback on the course, as well as in relation to cooperation and research in the future. We have already received confirmations of attendance once the course is offered to the public.
